ULTRA
SOFT 
feel the difference

Redbook green® is carpet that makes the world of difference, manufactured using Sorona® polymer, made from 37% natural corn sugar.

Stubborn household spills sit on the outside of the fibre, so that you can remove them quickly and easily with H₂Only. No chemicals, no fuss. Just cold water to remove stains like red wine and cordial^.

Whilst stain resistance and environmental credentials are great, but it wouldn't be a Redbook green carpet unless it was beautifully soft. So we added Ultra Soft® technology, where more filament are added to every fibres for a soft finish. So kick back, relax and sink your toes into an Ultra Soft Redbook green carpet and you'll know exactly what we mean.

Cold water is all you need to remove tough stains like red wine, tomato sauce and pet mishaps. You'll love your new Australian made Redbook green carpet without the "how will I clean this?" moments. View a sample at your local Floorworld store.
